## ABOUT ME

My name is Evellyn. I'm a person who tries to see the good side of situations. When things don't go to plan, I think about how to get around them, concentrating on solving the problem.

My professional career started in architecture. Now, I'm starting a career in software development, give a unique perspective to technology, combining creativity, technical skills and organization based on all different experiences in multidisciplinary teams and projects in other areas.

Now I'm looking for my first project in the IT field, I'm available for any type of position.
